PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience in designing, developing, and deploying scalable web applications. Skilled in modern JavaScript frameworks, backend development, and database optimization. Adept at building responsive UIs, integrating APIs, and improving application performance. Strong communication, teamwork, and leadership skills with proven problem-solving mindset, ensuring delivery of high-quality, user-centric solutions.

EDUCATION

Bachelor of Science in Computer Science

Savitribai Phule Pune University

May 2026

Ahilyanagar

WORK EXPERIENCE

Software Engineer

A2zItHub PVT LTD

April 2025 - Present

Ahilyanagar

- Developed and maintained responsive web applications using *MongoDB, Express.js, React.js, and Node.js*.
- Built RESTful APIs and integrated frontend with backend services.
- Designed and optimized database schemas using *MongoDB*.
- Used *Git/GitHub* for version control and followed *Agile* development practices.
- Debugged, tested, and optimized applications for better performance and user experience.

RepoMetrics |Express js , React, PostgreSQL

Jan 2026

- Developed a full-stack web application to analyze and visualize repository metrics, improving data processing speed by **50%**
- Implemented **GitHub OAuth authentication**, enabling secure login for **500+ active users**
- Designed **interactive dashboards and data visualizations**, enhancing decision-making efficiency by **40%**

Construction Management System

- Developed RESTful backend APIs and controllers using Express.js with MySQL for managing tenders, bids, inventory, payments, and user data.
- Designed and integrated MySQL database schema, optimized SQL queries, and implemented efficient server-side data handling.
- Built responsive EJS views with Bootstrap, JavaScript, and jQuery for dashboards, tender/bid workflows, and asset management.
- Implemented authentication, role-based access control, and CRUD operations for

multiple user roles.

- Improved application performance, user experience, and code maintainability through modular architecture and reusable components.

TECHNICAL SKILLS

Languages | MongoDB, SQL (Postgres), Typescript, JavaScript, HTML/CSS,

Frameworks | React, React Native, Node.js, Express.js

Developer Tools | Postman, Git/Github, Linux, AWS

Libraries | Bootstrap, TailwindCSS, jQuery, Redux
